BOURBON**

KURGO STEP 'N STROBE DOG SHOES

Great for every terrain, this lightweight, dog shoe protects your pup's paws from severe cold in winter and burning heat in the summer. It also provides support and protection for long walks and hikes on uneven terrain. Waterproof in the sense that they're designed to be completely submerged for extended periods of time, the Step 'N Strobe Dog Shoes intentionally does not keep a pup's paws completely dry when submerged, so your pup can still get rid of heat through its feet. These dog boots are made of breathable tight-weave mesh that works in conjunction with structured synthetic leather uppers and outsoles to provide protection and durability. Light-up soles (red and green lights) make your pup visible by night.

\$70.00

LL BEAN WATERPROOF SOLAR FLASHLIGHT

The LL Bean Waterproof Solar Flashlight is a customer favorite and is now 50% brighter, cranking out an impressive 60 lumens. It's always ready – and never needs batteries. A state-of-the-art solar panel will continuously charge the built-in battery, whether it's in the sun or under a lamp in your living room. A charge of eight hours provides up to 12 hours of light, and the battery holds a charge for over three years no matter where it's stored. The 1-watt 2X LED throws a super bright beam. It is waterproof to 80 feet and floats in water and constructed of shockproof ABS plastic and rubber. Three included CR2016 lithium cell batteries provide backup power. Imported.

MISFIT WEARABLES SHINE PERSONAL ACTIVITY MONITOR

The Misfits Shine is an elegant personal activity monitor you can wear anywhere. Waterproof to 50 meters, the Shine can be worn virtually anywhere with a clip, leather band, sport band, or necklace. With Bluetooth sync it can connect to your smartphone to get relevant details; tracks running, cycling, swimming, and sleeping. The Misfits Shine allows you to set activity goals and see stats and trends via the Shine app. Just by double tapping Shine you will see a halo of lights to tell how close you are to reaching your goals for the day. The Shine is carved out of aircraft-grade aluminum, and engineered to be elegant. No charging is needed as it runs on a replaceable coin cell battery that lasts up to 6 months.

\$99.99

MONTANE MINIMUS SMOCK

Montane, based in the rain soaked UK, has a 20 year history designing ultra-light waterproof clothing. The Minimus Smock,

weighing only 5.3 oz. and packing down to the size of an apple, is an ideal rainproof jacket for any kind of activity. The compact size makes it easy to bring along on side trips from the RV. Thoughtful British engineering ensures an active fit with articulated arms for unrestricted movement for activities like running, climbing, biking, hiking, or just hanging outside the camper.

\$199

MONTANE MINIMUS PANTS

The Minimus Pants are exceptionally lightweight rain shell pants, featuring articulated knees for high step movements, elasticated

waist with locking drawcord, 1/4 zip leg vents, reflective detailing and a stuff sack for storage. Made using PERTEX® Shield, a fully waterproof fabric with a 10,000mm hydrostatic head, and exceptional breathability (7,000 MVTR). The Minimus Pants combined with Minimus Smock make a lightweight rain/wind protection combo for traveling where conditions are variable.
