

### KEY:

- A** Rear headrest D-ring straps (for detachable headrest)
- B** Rear headrest hitch straps (for fixed headrest)
- C** Seatbelt/baby seat openings
- D** Front headrest D-ring straps (for detachable headrest)
- E** Front headrest hitch straps (for fixed headrest)
- F** Grommet holes
- G** Elastic cord

## Attaching the hammock:

### For vehicles with detachable headrests

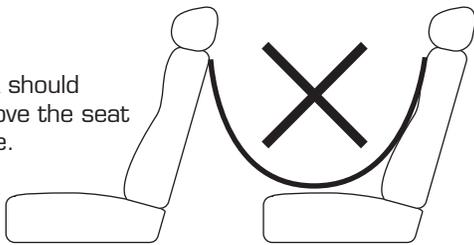

- 1) Remove the front and rear headrests. Place the rear headrest columns through D-rings at the end of each strap (A). To avoid the hammock bunching, move straps (A) right or left between grommet holes (F) to ensure each pair of straps (A) align with each headrest. Repeat for front with straps (D).
- 2) Tighten all straps so the bottom of the hammock still touches the seat, but leaves no slack.
- 3) For further positioning on seats stretch the elastic cord (G), located on the underside of the hammock, under the left and right seat corners. Tighten as necessary.

### For vehicles without detachable headrests

- 1) To avoid the hammock bunching, move straps (A) right or left between grommet holes (F) to ensure each pair of straps (A) align with the rear headrests.
- 2) Clip strap (B) around each headrest to aligned strap (A).
- 3) Repeat steps 1 and 2 for straps (D and E) on the front headrests
- 4) Tighten all straps so the bottom of the hammock still touches the seat, but leaves no slack.
- 5) For further positioning on seats stretch the elastic cord (G), located on the underside of the hammock, under the left and right seat corners.

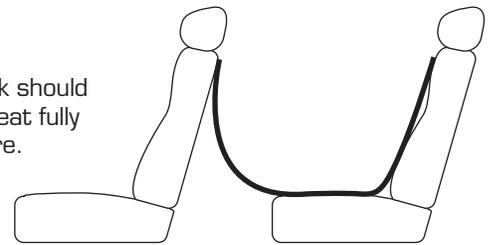

### Incorrect:

The hammock should **NOT** hang above the seat as shown here.

### Correct:

The hammock should rest on the seat fully as shown here.

## Cleaning Instructions

Our product cleaning instructions will help ensure that your gear has a long, exciting life. Washing by hand and hang air-drying is the best way to care for your Kurgo products.

### Hand Wash Instructions

1. Brush off loose dirt with a dry brush.
2. Spot clean with a damp sponge, cold water, and mild soap. Avoid harsh detergents.
3. If necessary, rinse larger area to eliminate excess soap residue.
4. Hang to air dry (do not machine dry).

**NOTICE:** Please contact Kurgo directly with any product or warranty inquiries.
